

# TOLEDO FIREFIGHTERS MUSEUM EXPANSION

Toledo, Ohio  
Current

[www.duketarchitects.com](http://www.duketarchitects.com)

This project was conceptually designed to assist the Toledo Firefighters Museum board in their fundraising efforts for renovations to their current facility and to add additional space. The first floor of the addition provides for expanded historic fire apparatus display while the second floor provides space for additional historic artifact display as well as a new multi-media fire safety and prevention educational center.
