

Villa Chatau Blanc

Toledo, Ohio
2020

www.duketarchitects.com

This new home was sited to take full advantage of overlooking the floodplain of the Ottawa River where family ball games take place. The heart of this home is the kitchen — with adjoining dining and family room to easily accommodate family gatherings. With first-floor primary bedroom and a study with three bedrooms on the second floor with a large grandchild dream bunkroom. The lower level with home office and a large wet bar, a fireplace with a tv for everyone's favorite team on Saturday with wine tasting and storage.
